

Press release Calendar Week 14/I

The complete range for “star drivers”

Rameder with towbars for almost any Mercedes and many other brands

Rameder has thousands of different towbars, covering almost all brands in the European market. And it provides the full range for Mercedes-Benz as well, with three new ones out now.

If you want to retrofit your Mercedes Benz C180 (1993 vintage), for example – still a popular modern-era classic car – you will find the right detachable towbar (towing capacity 1800 kg, bearing load 75 kg) for € 324 or up including a 13-pin electrical kit.

A trailer of 2100 kg (bearing load 88 kg) can be towed by the detachable towbar for an E-class estate S212. With its 13-pin electrical kit, the package is available in **Rameder**’s online shop for €354.

And even the upscale S-class of the latest generation can be made a towing vehicle. With a complete set for € 604, including a detachable towbar and a 13-pin electrical kit, you are well prepared at all times and can tow up to 2200 kg at no less of a bearing load than 110 kg.

Incidentally, all these systems can also be used to mount bike carriers. Check out the **Rameder** online shop at www.rameder.eu.
